

SITOWISE

Data and the future of smart cities

Digitala Kartdagar

KALLE NIEMINEN, LEADING EXPERT

Sitowise

[SITOWAIZ] [SITOWISE]

Sitowise is a Nordic expert in the built environment with a strong focus on digitality.

We design smart cities and spaces for living where daily life finds a sustainable foundation.

We operate in three business areas: building design, infrastructure design and digital solutions.

A uniquely vast combination of expertise for the development of a built environment

Properties and buildings

- Structural engineering
- HVAC engineering
- Electrical design
- Architectural design
- Lighting
- Building automation
- Fire protection engineering
- Acoustics
- Project management
- Construction contracting
- Condition assessments and surveys

Infrastructure

- Road and street design
- Railway design
- Land use and urban development
- Landscape architecture
- Geotechnical planning
- Rock and tunnel planning
- Bridges and other structures
- Water services
- Transport and traffic
- Construction contracting services
- Urban design

Digital solutions

- Customer-oriented software development
- Software products
- Data management and visualisation
- Geographic data
- Expert services and strategic consultation
- Data Engineering & Data Science
- Service design

Services from underground to the sky

Environment and water

Sustainable development

Strategies and operational development

Construction contracting, project management and supervision

Studies and surveys

Expanding to Nordics

Our services in Sweden

- Structural engineering
- Geotechnics
- Project management
- HVAC engineering for the infrastructure industry

Our subsidiaries **TFIP** and **BTB Byggnadstekniska Byrå** operate in Sweden.

OUR
VISION

**The most
responsible
partner in
developing a
prosperous
environment**

Big Picture

Smart City history

1974 – Los Angeles created the first urban big data project: “A Cluster Analysis of Los Angeles” report.

2005 – Cisco put up \$25m over five years for research into smart cities.

2012 – Barcelona deployed data-drive urban systems, including public transit, parking, and street lighting.

2017 – EU-funded projects on Smart Cities

2020 – Sitowise The Smart City Company

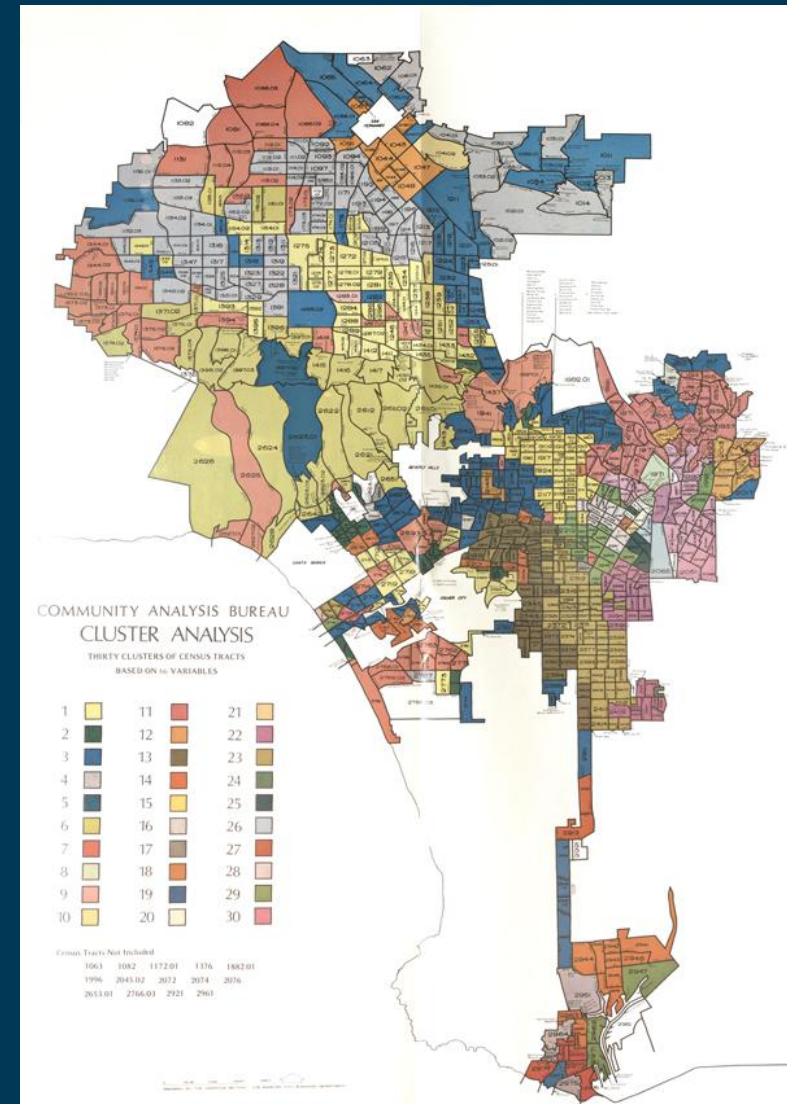

1994 – Amsterdam created a virtual ‘digital city’ – De Digital Stad (DDS) – to promote Internet usage.

2009 – IBM unveiled \$50m Smarter Cities campaign to help cities run more efficiently.

2013 – Mayor of London created Smart London Board to shape London’s digital technology strategy.

2020 – The OECD Programme on Smart Cities and Inclusive Growth

1974 – Los Angeles created the first urban big data project: “A Cluster Analysis of Los Angeles” report.

Megatrends behind the smart cities

**Technology will
steer our future**

**Sustainable
development is
the only option**

**Next moonshots
are made in cities**

Data decade

Megatrends behind the smart cities

Technology will
steer our future

Technology will steer our future

1 2 3 4 5 6 7 8 9

1 2 4 8 16 32 64 128 256

artificial intelligence,
robotisation, nanomaterials,
biotechnology, pharmacology,
energy technology, global
platform economy, blockchain**

More data

**Technology will
steer our future**

- **Will humankind change more in the next 30 years than in the past 300 years?**
- **Technology will have huge impact not only in economy but in human, social and cultural aspects**
- **Technology and human?**

**Those who speak the language of
technology will determine the
direction for the future**

Megatrends behind the smart cities

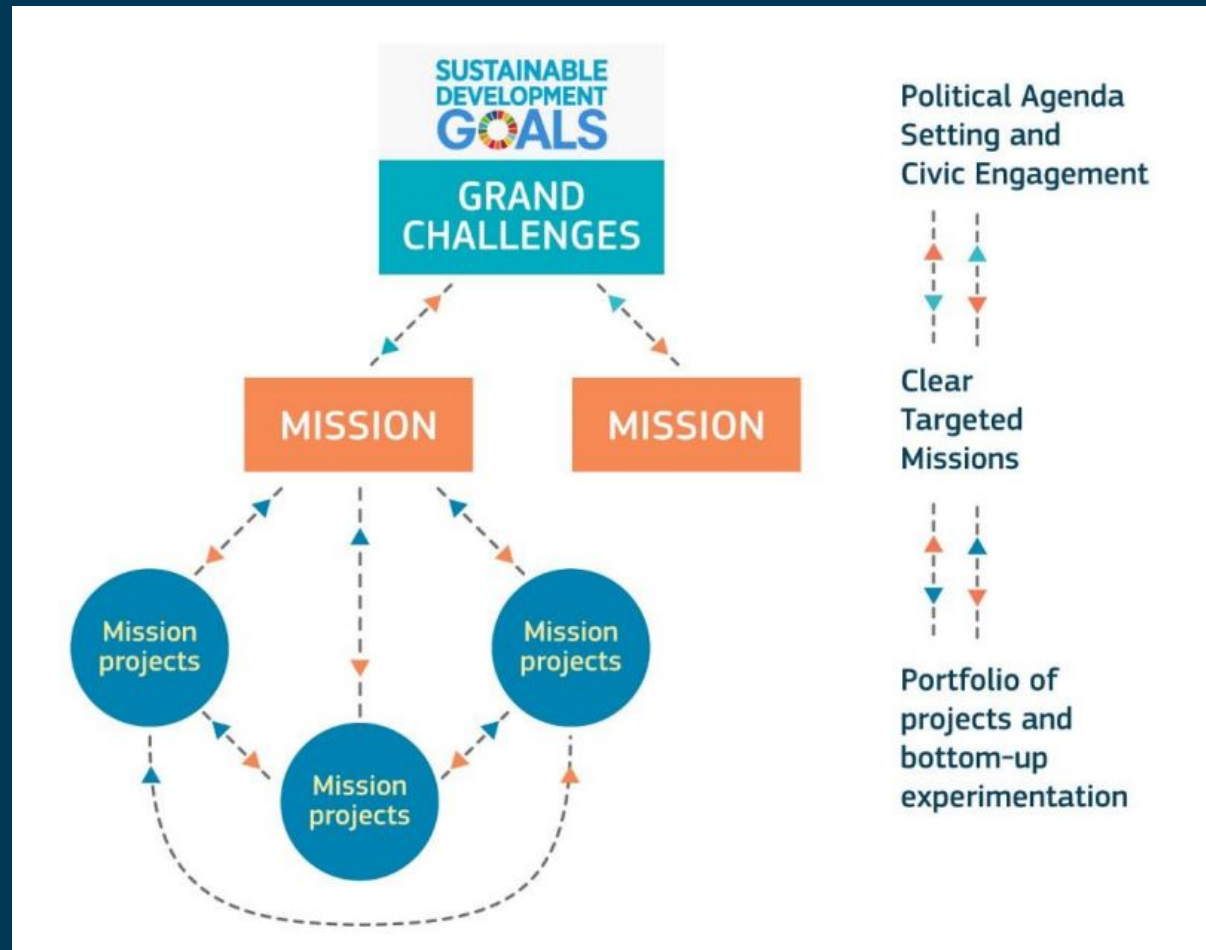

**Next moonshots
are made in cities**

Next moonshots are made in cities

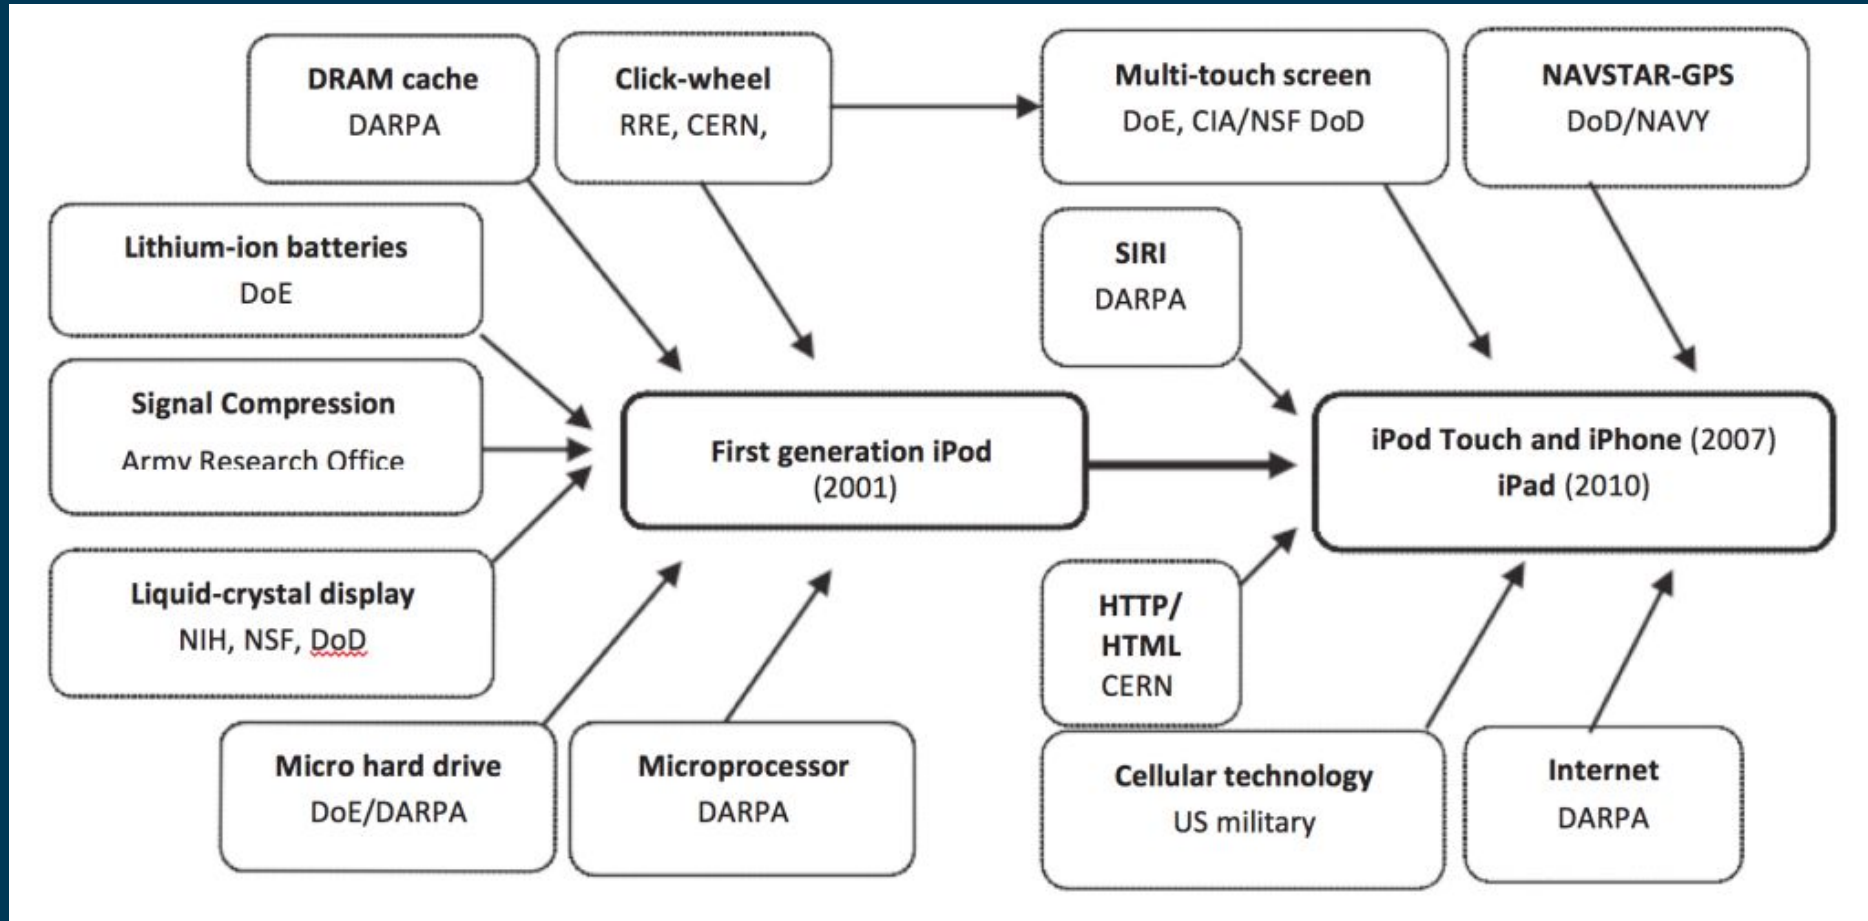

Mission oriented innovation

Mariana Mazzucato, *The Entrepreneurial State*, 2018

All the main parts of iPhone are funded by the government

Mariana Mazzucato, *The Entrepreneurial State*, 2018

the assumption

private sector

vs.

public sector

**Next moonshots
are made in cities**

- **Cities are the platform for innovation**
- **Urbanization brings more power to cities**

Visions for the future are needed

Megatrends behind the smart cities

**Sustainable
development is
the only option**

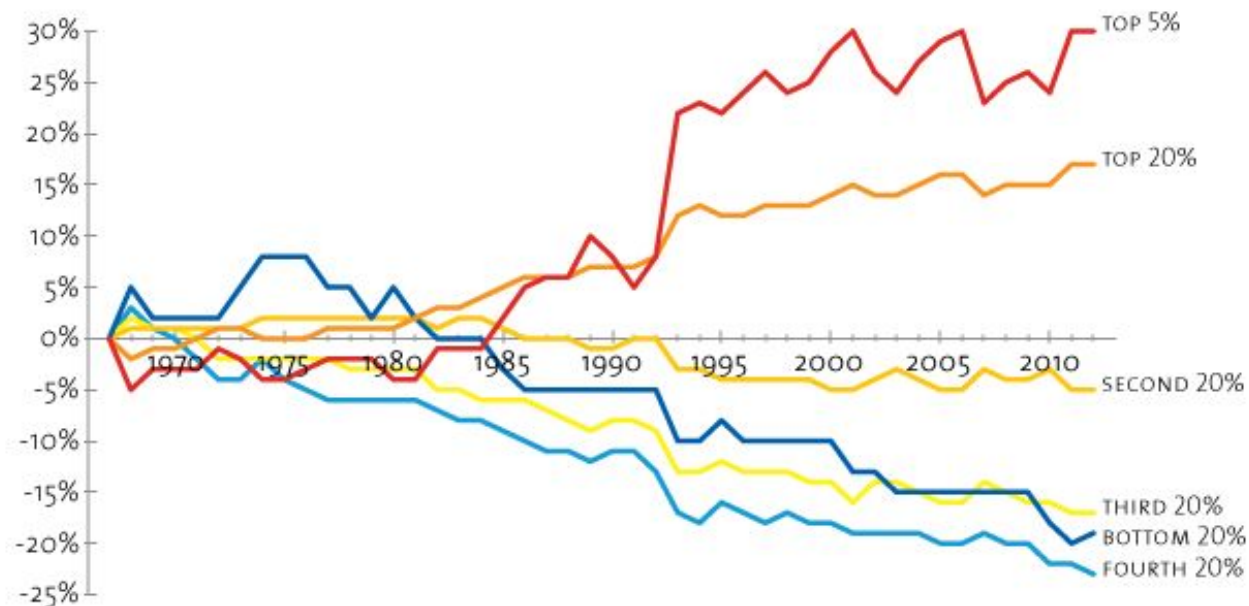

Kestävällä kehityksellä ei ole vaihtoehtoja

Kestävällä kehityksellä ei ole vaihtoehtoja

Change in Share of Total Income, 1967-2012

relative to 1967, by percentile

Forbes Technology Council COUNCIL POST | Membership (fee-based)

Innovation

Data decade

- **Can we set european values and models for fair and sustainable data economy?**
- **Data and decision making**

We are living the decade of data.

?

Complex

- Constantly changing and highly complex environment, where cause and effect relationships could be only found in retrospect.
- Probe – sense – respond

Complicated

- There is a clear relationship between cause and effect, but not everyone can see it.
- Sense – analyze – respond

Chaotic

- No cause and effect relationship can be found
- act – sense – respond
